COMP 4064 – Career Planning and Portfolio Development

Course Description:

The purpose of this course is for students to enhance and apply career planning and professional etiquette skills to effectively prepare for successful employment. Students will focus on developing a customized cover letter, resume and showcase a compelling online portfolio. Professional presentation and competency interviewing will also be explored. Additionally, students will focus on skills such as networking, interpersonal communication, personal presentation, and business etiquette. Active participation will be required as students will be learning experientially, collaboratively, and cooperatively.

Course Outcomes:

Upon successful completion of this course the students will have demonstrated the ability to:

1. Demonstrate proficiency in creating a customized professional Cover Letter and Resume.
2. Construct a digital portfolio that highlights key achievements, projects, and professional experiences, utilizing digital platforms to enhance personal branding and showcase relevant skills.
3. Analyze, adjust and act according to professional workplace etiquette expectations, including verbal and non-verbal communications expectations, workplace ethic expectations.
4. Demonstrate preparedness in job interviews and other professional networking contexts.
5. Engage and actively participate in group mock interview scenarios to enhance and articulate thoughts and experiences clearly and concisely.

Teaching Aids:

- Resources will include but not be limited to, presentation slides, articles, worksheets, video and audio clips and case studies.
- Resources will be provided on D2L.

Course Delivery Mode:

The course uses various instructional methods, such as lectures, demonstrations, hands-on exercises, and assignments. Some programs will be delivered completely online, and some will be delivered completely in class Refer to Stuvview.

In-Person Exam Policy (COMP 4064 does not have any exams)

- Mid-Term Exams: Week 7 of the semester
 - Final Exams: Week 15 of the semester
- Students are expected to be available in person during these exam periods.

Important Note on the Use of Generative AI:

Students must review the "Generative AI Usage Guidelines" document, available on D2L, for detailed instructions on how generative AI tools may be used in this course. The course evaluation table now includes a column labelled "AI Usage Allowed," indicating whether AI use is permitted for each assessment.

Yes: AI can be used with proper referencing.

No: AI cannot be used, and any usage will be considered plagiarism and subject to academic penalties.

Misuse of AI in assessments where it is not permitted or failure to adequately disclose its use will be treated as a violation of academic integrity. **According to college policy, consequences may include failing the assignment or the course or more severe disciplinary actions.** Students must also **download the AI Usage Declaration form from D2L, complete it, and submit it with their assignments where AI use is permitted.** Adherence to these guidelines is mandatory to maintain academic integrity.

Assignment Policy:

- Assessments are to be completed on the dates indicated unless prior arrangements have been made with the professor to complete on an alternate date.
- Extension requests must be made a minimum of 48 hours before the deadline.
- All assignments must be submitted on D2L. Timely and accurate submission should be considered part of the assignment.
- All assignment deadlines are set at 11:59 pm on the class day indicated in the course outline as when the assignment is "DUE".
- Assignments in this course are individual, so work submitted that does not reflect unique and independent work will not be accepted. Refer to GBC [Academic Integrity](#)
- Further details regarding each assessment, including descriptions/instructions and a breakdown of the grading rubric, will be provided on D2L and reviewed in class on the days indicated in the course outline.
- To receive full credit, students must submit their assignments on the due date specified by the professor. Late submissions will be penalized 20% per day, up to a maximum of five days (including weekends), unless the student has provided prior notification to the professor (via email, phone, or in person) of a valid reason for the delay.
- Submitting optional assignments after the due date will receive zero marks.
