AASD 4008 Big Data Tools and Techniques

Free Credits

Unfortunately, Microsoft change their policy and Azure for Students gets them started with USD100 in Azure credits to be used within the first 12 months.

Students do not need to provide their credit card number if they are using GBC email. Please be advice that they may ask them to provide credit card information if they need to get access to more services.

Please click on the link below and ask them login with their student ID for example 101151665@georgebrown.ca The password will be their GBC email password.

<https://portal.azure.com/#home>

Please see the link below for more information about Azure for Students.

Microsoft Azure Setup

Microsoft Azure is Microsoft's public cloud computing platform. It provides a range of cloud services, including **compute**, **analytics**, **storage** and **networking**. Users can pick and choose from these services to develop and scale new applications or run existing applications in the public cloud.

Microsoft charges for Azure on a pay-as-you-go basis, meaning subscribers receive a bill each month that only charges them for the specific resources they have used.

Once customers subscribe to Azure, they have access to all the services included in the Azure portal. Subscribers can use these services to create cloud-based resources, such as virtual machines (VM) and databases.

Right now you can get 200 USD credit, try now at
