

Data Governance

- DAMA Wheel Sub-Domain: Data Quality Domain
- Principle:
 - The Value of Data is the Quality Level meets stakeholders' needs.
- Aligned Policy:
 - Confirm data quality aligns with the stakeholder's needs to maximize the data value.
- Corresponding Procedure:
 - Bi-weekly the data team needs to align with the stakeholders about the goals of using data and make sure the data quality meets the stakeholders' needs.
 - KPI setting with peer review with stakeholders to check the goal achievement.
