

Exam Group A – 20 points – 75 minutes

Scenario: **Online Movie Theater Ticketing Application (i.e.: Ticketmaster / Cineplex / etc.)**

Overview: the exam evaluates your comprehension and practical application of fundamental data management.

Instructions: Use Lucidchart or Draw.io to

1. Develop the Process/ Data Flow Diagram (**P/DFD**) – Level 1, indicating the flow of data among processes. Show ownerships and orchestration.

Save as: ***student's name* _DFD** as a **PDF file** (no screen shot)

2. Develop the Entity-Relationship Diagram (**ERD/2NF**). Your design must adhere to best practices in data management. Use Crow's Foot notation.

The ERD must allow clients to browse movies, buy tickets, seats, select locations, etc. Indicate Master Data, add Reference Data and Metadata tables.

Save as: ***student's name* _ERD** as a **PDF file** (no screen shot)

3. **Apply Data Governance:** select one DAMA Wheel sub-domain. Develop a principle, an aligned policy, and a corresponding procedure. Use MS Word.

Save as: ***student's name* _GOV** as a **PDF file**

4. **Submit** the 3 PDFs using the submission link that corresponds to your exam group letter

Important: Excerpt from the College Policy on Academic Dishonesty: The minimal consequence for submitting a plagiarized, purchased, contracted, or in any manner inappropriately negotiated or falsified assignment, test, essay, project, or any evaluated material will be a grade of zero on that material.
